### October Card Brand Updates

On October 17, 2025, our systems will reflect updates to Visa and Mastercard programs and fees as outlined by these card brands. These changes will impact certain merchants, depending on the types of cards they accept and how transactions are processed. Interchange rates from the card brands will be passed through to you. The most noteworthy changes are detailed below. You can learn more about interchange rates and association fees at [xplorpay.com/interchange](https://xplorpay.com/interchange).

### New Product 3 Rates Under Visa CEDP

Earlier this year, Visa launched the Commercial Enhanced Data Program (CEDP). This program introduced stricter requirements for B2B merchants who process enhanced transaction data, formerly known as Level 2 and Level 3 processing. As part of CEDP, Visa is introducing the Product 3 Fee Program, which replaces the old Level 3 structure. Only merchants verified under CEDP will qualify for the new Product 3 program.

#### Beginning October 17, 2025:

- Merchants must provide corrected invoice-quality data for eligible transactions.
- Transactions with missing or inaccurate data will not be eligible for the Product 3 program.
- A 0.05% Visa Participation Fee may be assessed to participating merchants depending on their pricing plan.

Mastercard is also implementing changes to interchange programs that will apply to certain Corporate and Purchasing credit purchase transactions.

Please note that Visa will sunset most Level 2 programs in April 2026. Additional information can be found at [xplorpay.com/cedp](https://xplorpay.com/cedp).
