Making payments

We offer several easy payment options:

- Pay online using MyAccount at
www.clarkpublicutilities.com
- Pay by mail using the envelope provided
- Visit one of our offices. Each has a 24-
hour drop box for after-hours payments
- Pay by phone by calling 360-992-3400
- Pay at any Columbia Credit Union, all
Clark County locations.

Payment arrangements and assistance

If you're struggling to pay your whole utility
bill on time, please call us. We can help
you determine if you're eligible for financial
assistance or help you make payment
arrangements.

Fee information

If your check is returned for insufficient
funds or a closed account, we will charge
a fee. We'll charge a late fee for bills more
than 15 days past due. The fee is one percent
of the past due balance each month, with
a minimum monthly charge of \$2.50.

Bill disputes

If you believe your bill is in error, contact us.
If we can't resolve the dispute, you have a
right to a hearing with a hearings officer.

Disconnection

We don't like to disconnect service, but
sometimes we have no choice. Service
may be terminated for appropriate reasons,
including:

- Failure to pay a current or previous
bill, a security deposit or to make
satisfactory arrangements
- Failure to comply with terms of a
deferred payment arrangement
- Unauthorized use of service

Service will not be restored until the situation
has been resolved. If service has been
disconnected, it is illegal for customers to
reconnect it. Offenders will be prosecuted
and assessed a reconnection fee.

Estimated billing

When starting or stopping service your bill
may be prorated or estimated based on
the next available meter read if a same-day
read is not available.

Other information

For a free copy of our service policies or
additional information, please give us a call
at 360-992-3000. Your bill includes charges
for electricity, delivery services, general
administration and overhead, metering,
taxes, conservation expenses and other
items. The utility's fuel mix is available
upon request.

Employee identification

Our employees carry photo identification
cards. Please ask them for I.D. or call us
if you have questions about any activity
being performed by individuals representing
the utility.

This meter reads 61451

Figuring your electric bill

We measure electricity in kilowatt-hours.
One kilowatt equals 1,000 watts. For
example, you use one kilowatt-hour
(kWh) when you burn one 100-watt
light bulb for 10 hours.

Your electric meter keeps a running
record of the kilowatt-hours you're
using. To read the meter, record the
numbers on each dial. If the pointer
is not directly on a number, read the
next smallest number. Some meters
only record part of the electricity use.
In these cases, we use a multiplier to
convert the meter reading to actual use.

Figuring your water bill

We measure your water use in cubic
feet. One cubic foot is 7.48 gallons.
There are two kinds of water meters.
One has several dials like your electric
meter, and you read it from right to
left using the same process you do for
your electric meter. The second type
reads like a car odometer. The last
digit to the right records single cubic
feet. This type of meter is read from
left to right.
